Greater Blue Earth Basin: Conventional Parameters

2008 Impaired Waters Requiring a TMDL (per Section 303 (d) Clean Water Act)

Affected Use

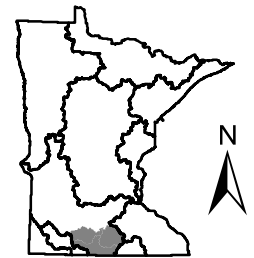

- Orange line: Aquatic Life
- Green line: Aquatic Recreation
- Purple line: Aquatic Life and Aquatic Recreation

Pollutant, Stressor, or Indicator

- A = Ammonia
- ACE = Acetochlor
- B-F = Fish IBI
- B-I = Invertebrate IBI
- B-FI = Fish & Invertebrate IBIs
- Cl = Chloride
- DO = Low Dissolved Oxygen
- FC = Fecal Coliform
- LCWA = Lack of coldwater assemblage
- pH = pH
- T = Turbidity
- Tm = Temperature

Map Symbols

- Blue line: Major Rivers
- Blue area: Open Water
- Black outline: Counties
- Grey area: Major Watersheds
- Black outline: Major Basins

For additional information concerning impairments, such as station information and monitoring data, see the MPCA Environmental Data Access System. <http://www.pca.state.mn.us/data/edaWater>
