

Hello all,

Rain has been a dominate feature on our landscape over the last week as the farmers grudgingly take a break from the harvest and hunters begin to scout the sky for migrating waterfowl. I hope all of you enjoyed the warmer than normal temperatures over the last weekend, it looks fall temperatures have arrived.

The University of Minnesota Extension Service is offering one and two-day courses to help prepare public agency staff and private service providers for certification by USDA-NRCS as Technical Service Providers or acquire Technical Approval Authority (TAA) for specific practices. A series of classes are being offered in November including introductory and advanced classes on the Revised Universal Soil Loss Equation (RUSLE2) and a related class on Upland Land Treatment for farm conservation planning and certified Comprehensive Nutrient Management Plans (CNMPs). For complete information about the Clean Water Legacy TSP Training Initiative, including class registration, can be accessed online at <http://tsp.umn.edu>

Moisture or the lack of moisture effects how much residue is left on the fields over the winter. The Natural Resources Conservation Service (NRCS) is encouraging farmers to cut back on their fall tillage. NRCS says leaving crop residue (corn, beans or wheat – it doesn't matter) on the soil surface over winter is a valuable contribution to the quality of soil and erosion protection available on the farm.

If you are looking for information on birding in the MN River Valley check out the web site <http://www.hendersonmn.com> under Henderson Feathers. Art and Barb Straub are one of the contributors to the site.

Events:

Enjoy the many exciting changes at the Linnaeus Arboretum, Gustavus Adolphus College with a Homecoming Arboretum Tour on October 13th from 9:00 to 9:45 a.m. or 1:30 to 2:15 p.m. The tour is geared towards families and will allow children to explore the many plants and animals in the arboretum.

Help CURE (Clean Up the River Environment) with a fall river clean up along the Minnesota River in Montevideo on October 13th from 11 a.m. to 4 p.m. Meet at the Public Landing on River Road behind Country Kitchen in Montevideo. For more information: <http://www.curemnriver.org/events.htm>

If you are in the Cities check out Will Steger's presentation: "Global Warming Solutions: A Public Forum" on October 14th from 7:00 to 8:30 p.m. at the All Saints Catholic Church at 19795 Holyoke Avenue in Lakeville. For more information: <http://www.fresh-energy.org/events.htm>

Check out "Lonesome Ron's Roundup at the Harkin Store near New Ulm from 1:00 to 4:00 p.m. on October 14th. Join the MN River Valley cowboy singer Lonesome Ron in a jamboree that serves as a musical goodbye to summer and conclusion of Harkin's annual visitor season.

Also on October 14th, you can hear MN Geologist Scott Wolter talk about the Kensington Rune, a 202-lb mysteriously engraved stone found in 1898 by Olaf Ohmna while clearing trees off his land near Alexandria. The talk will take place at Ney Nature Center near Henderson starting at 4 p.m.

The Minnesota River Watershed Alliance will be holding its next quarterly meeting on October 16th from 6 pm. to 9 p.m. at the New Century Charter School in Hutchinson. We will be picking the "Clean Up the Minnesota River" issue for 2008. For more information www.watershedalliance.blogspot.com

Check out more up-coming events click on the calendar at

Please register at the Minnesota River Watershed Alliance's bulletin board at:

<http://mail.mnsu.edu/mailman/listinfo/mrwa> to receive regular updates on what is happening in the Minnesota River Watershed.

The Minnesota River Watershed Alliance (Watershed Alliance) is an organized network of citizens, public agencies, and private organizations dedicated to communicating the benefits of an ecology healthy Minnesota River Watershed to others and are actively working towards its improvement and protection. The Watershed Alliance meets four times a year and encourages landowners and recreational users of the river to be part of this effort.

Thank you,

Scott
