Minnesota River Weekly Update

January 13 , 2015

DNR, RED LAKE NATION RENEW UPPER AND LOWER RED LAKES FISHERY MANAGEMENT AGREEMENT

(Released January 8, 2015)

The Minnesota Department of Natural Resources, Red Lake Nation and Bureau of Indian Affairs signed a new five-year memorandum of understanding (MOU) today that outlines continued cooperative management of the walleye population in the Upper and Lower Red lakes. The signing took place during a brief ceremony in Red Lake.

“Red Lake Band members are pleased that our walleye have come back and our fishing community is revitalized,” said Darrell Seki, chairman of the Red Lake Band of Chippewa Indians. “We are committed to ensuring that Red Lake walleye are managed sustainably in the future.”

Renewing this agreement will enable the Red Lakes Fisheries Technical Committee to continue its work to help protect this valuable resource, added Seki.

The new MOU closely parallels previous 1999-2014 agreements that facilitated restoration of high-quality walleye fishing to Minnesota’s largest inland body of water. The agreement states that each entity will support the Red Lakes Fisheries Technical Committee, a joint panel of experts that recommends policies and practices to maintain a healthy fishery.

“We’ve come a long way in the past 15 years,” said DNR Commissioner Tom Landwehr, noting that the combined state and tribal harvest approached 1 million pounds in 2014. “By renewing this agreement, we are reaffirming our commitment to a successful process that has delivered excellent results.”

Historically, Upper and Lower Red lakes were outstanding walleye fisheries, but they collapsed in the

mid-1990s due to over harvest. The technical committee was formed in 1997. Since then, the regulations, policies and other actions this joint body has recommended have led to a healthy walleye population and a resurgent walleye fishing economy.

RESERVATIONS DUE SOON FOR SEASONAL AND MONTHLY CAMPING

(Released January 8, 2015)

Those who want to stay longer than a week or two at a Minnesota state park should act now to nab one of the few campsites available for longer stays, according to the Minnesota Department of Natural Resources.

At a limited number of state park campsites, visitors can stay for a whole month or even a full season. Reservations for these opportunities in 2015 are due by Saturday, Jan. 31.

For pricing and other park-specific information, or to submit a request to reserve a site, prospective visitors can call the phone numbers listed below or check the [DNR website](#).

Nine Minnesota state parks have monthly and seasonal openings for camping in 2015.

- Big Stone Lake State Park (320-839-3663) in Ortonville will offer monthly and seasonal camping from May 1 to Sept. 6 at two sites with an electric hookup.
- Hayes Lake State Park (218-754-2200) south of Roseau will offer monthly or seasonal camping from May 8 to Sept. 6 at seven sites with electric hookups.
- Kilen Woods State Park will offer monthly and seasonal camping from May 22 to Sept. 6 at three sites with electric hookups. Call Phil Nasby at 507-831-2900, ext. 225, for information.
- Lac qui Parle State Park (320-734-4450) in Montevideo will offer monthly or seasonal camping from May 1 to Sept. 6 at three electric campsites and one with a full hookup to water, sewer and electricity.
- Lake Bronson State Park (218-754-2200) near Hallock will offer monthly or seasonal camping from May 8 to Sept. 6 at five electric sites.
- Myre-Big Island State Park (507-379-3403) in Albert Lea will offer monthly or seasonal camping from May 1 to Sept. 6 at four campsites, three of which have electric hook-ups.
- Old Mill State Park (218-754-2200) near Thief River Falls will offer monthly or seasonal camping from May 22 to Sept. 6 at seven sites with electricity and water.
- Rice Lake State Park (507-455-5871) in Owatonna will offer monthly or seasonal camping from May 1 to Sept. 6 at three campsites, two of which have electric hook-ups.
- Upper Sioux Agency State Park (320-564-4777) in Granite Falls will offer monthly or seasonal camping from May 1 to Sept. 6 at two campsites, both of which have electric hook-ups.

If demand exceeds availability at a particular park, a lottery will be held on Monday, Feb. 2, and the park will notify applicants whether or not they were selected. If sites are available after this date, they will be administered on a first-come, first-served basis. No preference will be given to monthly or seasonal campers from prior years.

For monthly campsite reservations, the entire monthly fee is due by Friday, April 17. For seasonal campsite reservations, a one-month down payment is due by Friday, April 17, and the remainder of the seasonal fee is due when visitors arrive to check-in. If a lottery is not necessary and sites are available after Jan. 31, the monthly fee must be paid at the time of reservation to hold the site.

MPCA asking for comments on Clearbook pipeline station expansion

The Minnesota pollution Control Agency (MPCA) is inviting public comments on the Environmental Assessment Worksheet (EAW) for the proposed addition of four new crude oil

storage tanks at a Minnesota Pipeline Company just Southeast of Clearbrook. The comment period ends Feb. 4th 2015. The pipeline station currently has 11 crude oil tanks and supporting equipment. Koch is proposing adding four 300,000-barrel tanks that would be 196 feet in diameter and 56 feet height. The work will take place in the northwest portion of the site and including limited grading and resurfacing, construction of the new tanks and associated containment, as well as two small buildings, roads, piping and fencing. Pending permit approvals, construction could begin as early as winter 2014-2015 with a construction period of 14 to 17 months. Comments on the proposed expansion should be submitted in writing to Patrice Jensen, MPCA, 520 Lafayette Road N., St. Paul, MN 55155-4194 or by fax to (651)-297-2343 or via email to patrice.jensen@state.mn.us. Comments received after 4:30pm on Feb 4th, 2015 will not be considered. The EAW is preliminary environmental review of how a proposed project could potentially affect the environment. The EAW also helps the MPCA determine if an Environmental Impact Statement (a more in-depth environmental review) needed.

	<p style="text-align: center;">Sediment, science and stakeholders-clearing the muddy waters of the Minnesota River - Dr. Peter Wilcock- Registration-Moos Lecture Series January 21, 2015 @ 3pm-5pm</p>

Location: City Center Hotel, Mankato

Brief Description: The Minnesota River cuts a vast valley through southern Minnesota before merging with the Mississippi River. It crosses fertile land- and transports volumes of sediment. The geological history of the Minnesota River makes it a large source of sediment, and land use with climate change have greatly increased this supply. What do we do? Join Us for a fascinating and timely lecture by DR. Peter Wilcock, Head of the Department of Watershed Sciences at Utah State University. Dr. Wilcock has been leading a study of the river and will discuss how technology is used to identify and evaluate our options so Minnesota can clear up muddy waters of the Minnesota River!

Link: <http://freshwater.org/moos-family-lecture-series/dr-peter-wilcock-registration/>

**Minnesota Pork Congress 2015
January 21-22, 2015**

Location:

Brief Description: Minnesota Pork Congress is the Midwest's BEST swine specific trade show and education events that features a wide variety of trade show exhibitors, timely seminars and social activities designed exclusively for pig farmers and pork industry stakeholders.

Click [here](#) for more information.

**Getting to Know Woodcocks
January 22, 2015**

Location: Minnesota Valley National Wildlife Refuge, Visitor Center

Brief Description: You are invited to get to know one of Minnesota least appreciated birds... Woodcocks! This is probably because of their cryptic behaviors and their love of habitats that most people don't find pleasant to walk through. However, woodcocks are worth the effort to get to know.

This talk will cover woodcocks biology, habitat, and habitat management. Event begins at 7pm!

**36th Annual NPSAS Winter Conference
January 22-24, 2015**

Location: Best Western Ramkota Hotel

Brief Description: Northern Plains Sustainable Agriculture Society promotes sustainable food systems through education, research and advocacy. One way we do this is by hosting an annual 2 1/2 day Winter Conference. The majority of our 500+ attendees are farmers, ranchers, non-farm consumers, gardeners and foodies! Speakers : Dr. Don Huber, Alan Guebert, Cody Holmes, etc.

Contact: NPSAS - (701)883-4304
email- npsas@drtel.net

**MFBF Leadership Conference
January 23-24, 2015**

Location: Treasure island resort and casino in Red Wing

Brief Description: The leadership Conference is a joint effort of the MFBF Young Farmers & Ranchers Committee and the promotion & education committee to raise awareness of agriculture issues, provide advocacy tools and enhance networks, leadership skills and professional development.

	<p style="text-align: center;">Women Caring for the Land Winter Gathering January 27th, 1pm-4pm</p> <p>Location: Law Enforcement Center, Benson, MN Brief Description: The focus of the event will be on managing pasture of grassland. The gathering is free and open to women landowners who are interested in learning about enhancing productivity and conservation on their grassland, hay, and prairie acres. For more information or to reserve, contact the Land Stewardship Project's Rebecca White at 320-305-9685 or rwhite@landstewardshipproject.org</p>
	<p>Science Salon- Stay Current, Stay Connected</p>

January 29th, 2015 @ 6:30pm-8:30pm

Location: Hubert H. Humphrey School of Public Affairs, Humphrey School of Public Affairs, 301 19th AVE S ,Minneapolis MN 55445

Brief Description: Curious about how scientific research influences policy in the Land of 10,000 Lakes? Join us for a talk by Dr. Deborah Swackhamer to learn more about water quality research and public health policy. Dr. Swackhamer is one of the leading experts on water quality and public health in the United States. For more than 20 years, she has studied the sources and outcomes of persistent organic compound in the Great Lakes, including PCB's, dioxins, and pesticides. Her research looks at emerging concerns in aquatic systems and the ties these systems have to public health. Science salon, a program of the MAS is a forum for professional scientists to stay current on groundbreaking research and emerging technologies and engage in cross-disciplinary networking. At Science Salon, you will meet your peers from other disciplines, and enjoy refreshments, and stimulating activities or a speaker.

For more information contact Barbara Donoho bdonoho@mnmas.org . All attendees must register online. The Registration Fee is \$20 for non-members and member. Members may bring a guest for free of charge.

**Winter Fest
January 31, 2015**

Location: Minneopa State Park

Brief Description: Gather with friends, neighbors and others to enjoy the natural wonders and beauty of the winter season. On January 31st, Minneopa State Park is holding its annual Winter Fest from 5pm - 8pm at the group Campground. Come out to enjoy an ice candle lit trail groomed for both cross-country skis and snowshoes cutting through a floodplain forest. One candle lit trail will lead down to the confluence with Minneopa Creek and the Minnesota River. A blazing bonfire along with hot cocoa and cookies will be part of the festival event.

The event will take place if there is no snow on the ground.

For more information contact Scott Kudelka @ (507)-384-8890 or scott.kudelka@state.mn.us

**Feb. 5- Feb.
11**

**Whole Farm Planning: A workshop for Landowners
February 7th, 2015 @ 8:30am-2:30pm**

Location: Dodgeville, WI

Brief description: Whole farm planning allows you to generate income while protecting natural resources, enhancing your investment and meeting your aesthetic and recreational goals. This workshop will help you get started!

Please send registration to: Laura Paine, Southwest Badger RC&D 138 S. Iowa Street, Dodgeville, 53533
